

**THIS IS TERRIBLE, TRAGIC, PANIC, WORST THING EVER HAPPENED
WHAT SHOULD WE DO????...OH DEAR LORD HELP**

**GO PREACH ON THE STREET!!!!
THAT'S RIGHT...GO PREACH ON THE STREET**

A good street meeting will take your mind off the worries of election fraud, perversion, covid, revolution, gun confiscation, first amendment rights, BLM, defund police, recall, corruption, Chinese investments, and the price of gas.

A good street meeting will let you see something even worse...souls going to hell while being distracted from salvation by the list above.

When I was young and dumb, I would go to the billiard parlor (no associated with liquor or drugs as far as I knew) and shoot for a couple hours. This completely took my mind off all the problems I had in high school. I grew up, got saved, chose to serve the Lord, and discovered that a good street meeting takes away all the cares of the world and allows you to focus correctly on the true concerns and issues like sin, hell, false doctrine, and deceptions of religion. All these are much heavier than national troubles.

After 53 years on the streets, it still works. I took our ministry on the streets of Cagayan de Oro yesterday to sing, pass tracts, witness, and preach in a very busy market area and when we arrived back home I had to remind myself of all the trivial problems I should be worrying about as an American.

Try it...you'll like it. If you have no one to join you, get a huge stack of tracts and cover the whole of downtown USA...they all need it...yes, go by yourself.

If you are scared, remember, "Fear of anything but God is a sin." Get right with God. When you get back home...DON'T TURN THE TV ON!...You already know the problems there... pray for the souls who received the tracts and read your Bible.
