

# THE BUSINESS OF THE LORD

From my limited knowledge I know that many other missionaries are much busier than I, at the moment, in affairs and matters pertaining to the refugees, the war, and even the safety of their own property and families. This is not currently our situation, but we were pleasantly surprised at the generous offering our folk gave to Bro. Hamilton in Moldova for his work with the refugees.

Our business of late has been the service of the King in faithfully preaching, teaching, and spreading the Word of the King in the many areas of ministry the Lord has put before us.

## BASKETBALL COURT

Many of you have been patiently awaiting the BIG ANNOUNCEMENT that the basketball court is finally finished...GLORY. After a year and a half labor our good men smoothed out the last slab and the next day were playing three different games simultaneously. It is such a joy to see whole families playing together and all under the banner of the Church of our Lord Jesus Christ. Then add to this the Bible studies these activities spawn. These precious girls carrying their Bibles come from the neighborhood across the street to study with a couple of our grads. Our souls enjoy the union of the physical and spiritual for the overall health of our people.

## WELL!!!! NOW THAT IS A DEEP SUBJECT

Yes, our new project is the digging of a well... Filipino style. After many years of thinking, debating, praying, saving, and suffering from the unfaithful water supply to our property we finally put the shovel in the ground. We are currently at 18' battling some rock but we hope to strike water at under a hundred feet. Of course, if we strike gold or oil first, we will just buy the water but please pray with us that we soon find a good and abundant supply of water.

## SS AND MISSIONS

Our great SS kids ministered to our church with two illustrated songs this past Sunday. They sang "O-B-E-D-I-E-N-C-E is the very best way" and "The Crayon Song". This thrilled all our hearts. The mission's kids from our outreach ministries seem to really enjoy being involved in the things of the Lord. Both of the families we recently commissioned are doing very well. Alvin and May are looking for an adequate shelter in which to house their 45 followers and Nike and Love just purchased a motor tricycle to bring all the church brats in. Love is expecting their first little one and so the tricycle gave her comfortable transport as well. Nike sent me one of those sonograms of their baby at age 2 ½ months and I told Nike the baby looks just like him.
